

CANNA BALI

EXPERIENCE CANNA

An Escape Into The Only Wondrous Hidden Gem In Nusa Dua:

Canna Bali is Ready To Cater To Your Wanderlust This Coming July.

Nusa Dua, meaning *two islands*, is a fixture among Bali's hotspots for globetrotters. Developed since the 1970s, the resort area is famous for its five-star hotels resorts and picturesque beaches like in the movies.

Set to open its gates this July, Canna Bali is Nusa Dua's hidden gem tailored for the sweetest escape—a one-stop lifestyle destination with venues that are each specifically designed to cater to whatever mood you have to escape from reality.

Gracefully located in the middle of awe-inspiring colors that blend with the tranquility of the white sandy beaches and tropical greenery, Canna Bali comprises otherworldly beauty creating an unparalleled day-to-night experience.

The intricate details of Canna Bali's architecture remain environmentally conscious, as it encompasses an extensive area overlooking the majestic shades of blue over three levels, implementing world-class sustainable architecture and design. Each part of the venue is meticulously designed with a one-of-a-kind touch that complements one another and thus producing a captivating polyphony for the ultimate island experience for every bliss-seeking soul.

From Canna Village which is inspired by postcards of idyllic villages in Europe to Canna Sky for the guests to enjoy breathtaking views of the ocean without sandy toes and salty hair, from Canna Lodge; a laid-back yet stylish and fabulous dining experience by the sea to Canna Deck where one could enjoy countless tropical parties with talented DJs, from Canna Pool overlooking the sparkling ocean to Canna Shade for parents and their children as well as their furry friends and Canna Sand where guests can indulge in the most dreamy oceanside picnics. Canna Bali ultimately offers everything for everyone.

CANNA BALI

EXPERIENCE CANNA

Canna Bali's highlights include Cliff at Canna, an impressive fine-dining restaurant to satisfy your appetite. Canna Bali's top Chef Chandra said that he used the 25 years of his experience in the culinary and traveling industry when planning food and beverages at Cliff at Canna.

"We are bringing top-notch products from all over the world on their specific season to Cliff at Canna. We also have a wide selection of wine with creative refreshing cocktails as well as your favorite bites from both Asia and the West," said Chef Chandra. "Cliff at Canna will definitely be the new favorite in Bali," he added.

A romantic first-rate fine-dining experience for lunch and dinner while taking in the awe-in- spiring view of the sand and sea through the floor-to-ceiling windows is what one will get at Cliff at Canna. Every single hands behind this "breakthrough" concept has made the most out of classic materials as well as up-cycling elements from old houses into major and highly eye-catching parts of the interior design.

VIP sections for *crème de la crème* are welcomed at Stone at Canna. If you desire a private event with just you and your circles, Stone at Canna is the place to be as this venue can cater up to 40 people. Guests can spoil themselves with the most exclusive treatments with 5-star amenities and services: a private entrance, pool, shower, and a private chef, mixologist, butler, and a carefully curated playlist. It is an affluent experience overlooking Nusa Dua's scenery. When the night falls, Cave at Canna offers a vibrant club set inside a sophisticated man-made cave, a multifunctional space with multisensory experience. In harmony with Canna Bali's eco-friendly values, the rocks and stones that resulted from the cave construction have been integrated throughout the organic interior designs of the venue.

All in all, Canna Bali invites us to celebrate our love towards Bali now that the magical island reopens its doors for visitors. Canna Bali is designed to cover an extensive area that caters to the most breathtaking views that capture Bali in all aspects of its glory.
